Let's Read

I wanted to let you know that we are lucky enough to be involved in the Let's Read Program. Zoe, Tanya and I will be doing a workshop in May and will then be able to roll it out to any of our Mum's that are interested.

What is Let's Read?
Let's Read is a program that is designed to:

- Encourage parents to have fun reading with their young children and make this part of their daily routine.
- Develop a love of books in young children.

Let's Read aims to develop the building blocks that will help learn to Read and write when they get to school. Let's Read is not trying to teach children to read before school.

Basically what it will involve is that we will be able to give you advice and tips on reading etc as well as resources – including a book, tip sheet etc for you to use with your children.

They will also be sending out mature age volunteers to sit down at playgroup and read to the children at playgroup. Something I am sure everyone will enjoy.

They are also looking for more mature age volunteers so if you know of anyone that may be interested please let me know.
